We used to hang out everyday  
Roaming around the streets  
With holding our hands together  
But now only memories  
We used to say those magic words  
Many times a day  
We made promises to each other  
But all now memories  
I wish that time could come back  
Hoped u understand what I meant  
Loving you, was the biggest mistake  
As I was not knowing it give us so pain  
Still hope the time would return  
Days which were good show their  
Faces again, I still love u the  
Same as I did use to, the difference is  
That You donâ€™t love me anymore.  
I always loved more than a friend  
Cried when u left me alone  
Still hope things get better  
Because broken things are  
Always better alone.
