CHORUS:

Every time you touch me I get high
Every time you do it makes me fly
Oh, everything you do I wanna try
Seems like every time you touch me
Every time you touch me I get high

I, I could never make it without you
I've got to have you by my side
You're the one I dream of every night
I close my eyes and see your smile
So here I am with open arms, take my hand
and come into my heart

CHORUS

When you move your body next to me
You can give me everything I need
Just one look from you and I get weak (you make me
feel like nothing's real)
So here I am with open arms
Take my hand and come into my heart

CHORUS

Take a look, you will find I've got one thing on my mind
Don't you know, don't you see that I really believe in
love again
To think that I thought I'd never make it, never break it
