

## Sheavy "Velvet"

Visit "[Velvet](#)" on [MotoLyrics.com](https://MotoLyrics.com)

On and on, Time it slips into the sea  
On and on, A Circus croud surrounds the sun  
Stay my friend, A song not nearly at it's end  
Sleep my friend, the dream is far from over

What would they say  
If we stayed right here forever  
What would they say if we stayed...

Days pass by, the crimson ship has flown away  
You and I, May lie right here forever  
Say you'll stay, if for just a little while  
Say you'll stay, Tomorrow's just another dream

What would they say  
If we stayed right here forever  
What would they say if we stayed...

Shine and shine, The world is still a friend of mine  
Toture's garden, where every sky is a silver gray  
Sleep my friend, The day is surely at it's end  
Sleep my friend, The night has turned to velvet
