

## Sheesh "Stitch By Stitch"

Visit "[Stitch By Stitch](#)" on [MotoLyrics.com](https://MotoLyrics.com)

They call me out  
voices from inside and some from the other side  
take a trip  
lose yourself and feel it  
the numbness helps to save me from myself

the demons inside  
they rip me apart  
stitch by stitch and i'm back to the start  
the demons inside  
i turn them down low  
but broken or whole i hide it well and you'll never know

woke up to the same shit today  
beating myself up for what i did not say  
and i'll probably never really know  
if i'm my best friend or if i'm my greatest foe

the demons inside  
they rip me apart  
stitch by stitch and i'm back to the start  
the demons inside  
i turn them down low  
but broken or whole i hide it well and you'll never know
