Hey man, I wanna have a fight with you
Regardless of my feelings on the subject,
It appears that I am going to

Get up to fight, and get (forget?) about it
I've paid more than anyone would advise for this watch
and so far i am dissapointed in it....
It beeps at me at noon and seven and nine and i cannot
turn off the piece of shit

Hey man, hey!
I wanna have a fight with you
From the way that you behave it is clear
To me you would like to have one too.
Let's stop, dance (?)...
And do what we both came here to do *David
Woodhhead* *Max Hicks
