Yes it was me that night
Oh yes I still love you
I was wrong
You were right
And I really don't wanna fight

****Chorus****

Oh babe I will always love you
Please come back
I will always care for you
Forever and ever
Oh babe I love you

It's been days
Feels like weeks
And I still miss you
I will love you and tonight
I will still feel the same as now
****chorus*****

[Bridge]

It feels like forever
Now that your gone
And I still think that
I was so wrong
Cause when I first saw you
It was like love at first sight

****chorus****

Oh babe I will always love you
Please come back
I will always care for you
Forever and ever
Oh babe I still love you
