Well the night's still young I wanna have a good time
Well, you grab yours and I'll get mine
I don't care about tomorrow, there's only one thing I'm
thinking
If I go down tonight, I'm gonna go down swingin

Well there's a little country place about a mile from
here
I bet a hundred bucks everybody's down there
The music's so hot, they're all singing
Moving to the beat, I know what they're thinking
If I go down tonight I'm gonna go down swingin

Chorus

Well you drive me crazy with the way you move
Hey, where'd you learn to do the things you do
Take my hand, spin me around
You get me so high I don't wanna come down
Maybe later we can go outside
We'll share a little kiss underneath the starry moonlight
I don't care about tomorrow, there's only thing i'm
thinkin
And if I go down tonight I'm gonna go down swingin

Chorus

And if I go down tonight I'm gonna go down swingin
And if I go down tonight I'm gonna go down swingin
