

Shenoah "Ashes To Ashes"

Mirrors and makeup
With lipstick scars
Shattered the reasons
We've come this far
Streets of my getaway
Treason in your dirty misery
Broken faded memories
Dying deep within the flames
Again they burn
Let's tear it down
Ashes to ashes
Please forget me
Plastic deceiving
You've played your part
An actress believing
In her time bomb heart
Rewind in slow motion
Dancing in bed
Over again
Broken faded memories
Dying deep within the flames
Again they burn
Let's tear it down
Ashes to ashes
Please forget me
Contents in my head
Dig my grave
What if this was dead
Would it feel the same
