Back and forth I'm swinging brother still I breathe
Gunshots keep on ringing pavement burns my feet
Am I alive or breathing watera all this mean
Somethings wrong with this

(All this my desire, feelings from your choosen lifes!)

Take your best shot
Set your sights right for my heart
Spin the chamber
Pull the trigger watch us fall apart

Turned out im seeing her face disapear
Twisted self dascieveing somethings gone

(All this my desire, feelings from your choosen lifes!)

Take your best shot
Set your sights right for my heart
Spin the chamber
Pull the trigger watch us fall apart

(Everything I am is nothing that you wanted) X4

Take your best shot X3
Fire a....AWAY!!!
Give me the danger
Give my life back
Stare and whisper
Kiss this time

Take your best shot
Set your sights right for my heart
Spin the chamber
Pull the trigger watch us fall apart
