You always cared and never ever shut me out  
You always seemed to know what my problem was all  
about  
And when I needed understanding you were always  
near  
You always spoke the words I needed so much to hear

Oh Elisa, sister you're one of a kind  
Elisa

You could put a smile on my face when I felt like crying  
You could make me want to leave forever when I felt  
like dying  
Elisa, you're something special, there's no one quite  
like you  
It's just the way you are and the way that you do what  
you do

Oh Elisa, sister you'll never know,  
Elisa, how much I love you

Oh Elisa, sister you're one of a kind  
Elisa, there's nobody quite like you

Elisa x4  
You'll never know x2
