(bob mitchell/phil radford)

I give to you all of this
Eternity within a kiss

Oxygen oxygen
I need you more than oxygen
Oxygen oxygen
Give me more than oxygen

In this state of mind I feel
My spirit rise my body heal
Waiting for the touch of you
To bring to life the woman in my soul
You must be superman
Oh superman

Oxygen oxygen

I need you more than oxygen
Oxygen oxygen
Give me more than oxygen oh oh....

In this transcendental flow
We swin in rhythm letting go
Far off planets sensual
Lost in space, in time, in you
You must be superman
Oh superman

Oxygen oxygen
I need you more than oxygen
Oxygen oxygen
Give me more than oxygen oh oh....
