I used to walk in wonder always by your side
The secrets of my heart in your hand
Messages that you'd write were waves upon a tide
I was swept away, swept away, you said
You to me will never be lonely
I can see whenever you hold me
I will grow deep into your heart
Now I see the picture fading
Words you said they're betraying
All i have is coldness in my room

Stone roses, all you left me in my hand
Stone roses, I watched the petals turn to sand
Stone roses, all you ever gave to me, wo oh oh
Stone roses

There was a time when love made
tracks upon my face
Now I've found that love lives on
in a state of grace you said
You to me will never be lonely

I can see whenever you hold me
I will grow deep into your heartt
Now I see the picture fading
Words you said, they're betraying
All I have is coldness in my room

Stone roses, all you left me in my hand
Stone roses, I watched the petals turn to sand
Stone roses, all you ever gave to me, wo oh oh
Stone roses

Let me take you where we used to go
Let me show you where love will grow
Let me give you seeds you can sow
Because you know i just won't go for stone roses
