I went searching
For something I could believe
So I turned on the TV
I was fed hypocrisy
Leading me towards the sea
Of confusion

I heard a voice
Ringin' like music in the air
Breaking hearts most everywhere
All the people in despair
Cry out for justice to be fair
To every people

Saying let's get free let's get free
Don't just believe in what you hear
Don't just believe in what you see
Let's get free let's get free
You gotta open up your mind
'Cause truth is what ya need oh truth is what you need

Our love
Can prop you up and make you stand
Some are sinking in the sand
With all that silver in their hand
Take a message to that man
That wisdom is power

And tell me now
You have Allah on your side
Or is it Jesus or your pride
Will it get you through the night
Every man has to have something to believe in

Let's get free let's get free
You gotta believe in what you feel
And feel what you believe
Let's get free let's get free
You can open up your heart cause love is all you need
Oh love is all you need, oh love is all you need

Before the dawn

Comes the darkest hour of night
Either walk into the light
Or you turn and close your eyes
And fade into a dreamless sleep and hide

Every human
Is gonna laugh and sometimes cry
Every tear that fills your eyes
Falls with the weight of sacrifice
Forgiveness hears the pain of disappointment

Let's get free let's get free
Don't just believe in what you hear
Don't just believe in what you see
Let's get free oh let's get free
Everything's as it should be
So faith is all you need oh peace is all you need
Oh truth is all you need yeah love is all you need
Oh love is all you need oh faith is all you need yeah oh

What the world needs now is love love love
What the world needs now is love love love
What the world needs now is love love love
