Maybe, this is forever  
Forever fades away  
Like a rocket ascending into space

Could you not be sad  
Could you not break down  
After all, I won't let go

Until you're safe and sound  
Until you're safe and sound  
There's beauty in release  
There's no one left to please, but you and me

I don't blame you for quitting  
I know you really try  
If only you could hang on through the night

'Cause I don't wanna be lonely  
I don't wanna be scared  
And all our friends are waiting there

Until you're safe and sound  
Until you're safe and sound  
There's beauty in release  
There's no one left to please, but you and me

Sound  
Until you're safe and sound  
(Feel like I could've held on)  
(Feel like I could've let go)  
(I feel like I could've helped you)  
(I feel like I could've changed you)

Until you're safe and sound  
(Feel like I could've held you)  
(I feel like I could've hurt you)

Until you're safe and sound  
(I feel like I was a stranger)  
(I feel like I was an angel)

Until you're safe and sound

(Feel like I was a hero)  
(I feel like I was a zero)

Until you're safe and sound  
(Feel like I could've held you)  
(I feel like I could've healed you)

Until you're safe and sound  
(Feel like I could've saved you)  
(Feel like I should've heard you)

Until you're safe and sound  
(Feel like I could've moved you)  
(I feel like I could've changed you)

I feel like I could've healed you  
I feel like I should've told you  
I feel like I could've loved you  
I feel like I really loved you  
I feel like I really loved you  
I feel like I really loved you

I feel like I really loved you  
I feel like I really loved you  
I feel like I really loved you

I feel like I could've saved you  
Feel like I could've saved you  
Feel like I could've saved you
