There is always sunshine  
Above the grey sky  
I will try to find it  
Yes, I will try

My mind has been wandering  
I hardly noticed  
It's running on its own steam  
I let it go  
Oh here comes my childhood  
A penny for your secrets  
It's standing in the window  
Not out here where it belongs

There's a fire in the forest  
It's taking down some trees  
When things are overwhelming  
I let them be  
I would like to see you  
It's lovely to see you  
Come and take me somewhere  
Come take me out

There is always sunshine  
Far above the grey sky  
I know that I will find it  
Yes, I will try
