"Love Will Save The Day"

Visit "[Love Will Save The Day](#)" on MotoLyrics.com

The pornography made me do it
So those drugs that got us high
Was the thoughts of revolution
They've been poisoning my mind
So i'll walk you down into the water
But you keep coming up for air
All those people, they don't give a damn
They just stood around and stared
And i said,

Love will save the day [x4]

Go on sell me more of your religion
'cause it's sure to make a change
Last night god was on the tv screen
Taking dollars for their pain
Go on talk about that evolution
It's been poisoning my mind
I've been looking for a saviour
Yeah I've been waiting for a sign
And i said,

Love will save the day [x4]

I am walking
I am breathing
I can't feel you
I can't set you free
[x2]

Love will save the day
If love will save the day [x2]
If love will save today

Maybe tomorrow [x10]
