I'm infected  
I'm infected  
By your genetics

Shilo I'm the doctor  
Shilo I'm your father  
Oh shilo that was close  
Take your medicine

I'm infected  
By your genetics  
Shilo your my patient  
Shilo be more patient  
You have limitations  
Don't go chasing flies  
I must be protective  
You can not be reckless  
That's what is expected  
When you are infected

I'm infected  
By your genetics  
I'm infected  
By your genetics  
And I don't think that I can be fixed  
No I don't think that I can be fixed  
Then tell me why oh why are my genetics such a bitch

Is this blood condition  
Damn this blood condition  
Mother can you hear me  
Thanks for the disease  
Now I am sequestered  
Part of the collection  
That's what is expected  
When you are infected

That's what is expected  
When you are infected  
That's what is expected  
When you are infected  
How much of it's genetics

How much of it is me  
How much of it depends on the choices that we make  
He says I have my rights too and also inherit his shame  
Is the remedy the culprit  
Can't stop it or I am a slave

I'm infected  
By your genetics  
I'm infected  
By your genetics  
What hope has a girl who is sick  
What a dream of a life can this fence  
It really makes drone of the rents  
Cuz I know that I'll never be fixed  
Tell me why oh why are my genetics such a...  
... bitch

Oh I want to go outside  
Outside

Oh I want to go outside  
Outside
