Light breathe exhale  
the damage is done  
tonight weve failed  
so tell everyone  
the ships have gone by  
tell everyone  
i took them from the sky  
you are the one  
who give me hope  
you are the one  
who give me hope  
tell everyone  
stop fight dont hide  
the sun has gone pale  
im locked outside  
the desers gond cold  
these flowers wont survive  
the mountains just laugh  
and smil as we go by  
you are the one  
who give me hope  
you are the one  
who give me hope  
tell everyone
