Heaven and earth coming down  
We watched them fall  
Angels are gathering 'round  
No one talks  
We'll be alright, time 's on our side  
Angels are gathering 'round,  
Tonight, we'll sparkle and shine

Bury me deep in the ground, cover my eyes  
Dreamt we were killed from the fall  
We never died  
You'll be alright, I'm by your side  
Friends are all gathering 'round  
Tonight. . . we'll sparkle and shine!

It comes to us all  
We'll never know why  
It comes to us all  
In the end

Heaven and earth coming down  
We watched them fall  
Dreamt I was there in your arms,  
But we don't talk  
You'll be alright, time 's on your side  
Angels are gathering 'round,  
Tonight, we'll sparkle and shine.
