1st Verse

Just another day out on this road
Clapton comes on over the radio
Takes me back to a place in Time
A small town Love that felt so right
Lord Knows it's hard to do
Telling this heart that were through
A Love that young well you just don't know
Love like that is so hard to let go

Chorus

Every time I close my eyes
I'm back in Oklahoma and you're by my side
I'm back to the night we spent out on that Lake
The moon light walk we took on our first date
Where everything was right if only for a little while
Every time I close my eyes

2nd Verse

We laid on the hood of that Chevrolet
Watching the stars and the moon light fade
You looking at me I was looking at you
That's the moment I made my first move
You kept me on the edge just for a little while
My heart pounding girl you really drove me wild
Nights like that are engraved in my mind
I seem go there time after time
Repeat Chorus
