It's plain to see there's something and now you're  
getting nowhere fast.  
What's that you say?  
After everything, you don't me anything?

When you see just where you stand as you stand alone,  
You can pick yourself up off the ground.  
This time it's true, i'm sick of you.

Through all your games and all your lies,  
Still you're never say you're wrong.  
But that's ok, i'll take the blame as long as it means  
that you are gone.

And when you see just where you stand as you stand  
alone.  
After everything i've done for you, you say you're  
through?  
Well, i say goodbye.
