[Onew] Even if I try to avoid you, I can't find a place to
hide

[Taemin] I'm trapped by you, who I can't even deny

[Jonghyun] If it was love, if you really loved me, don't
do this to me

Her whisper is the Lucifer

[All] If you tie me down and trap me

Then the love is also tied down

The future is also tied down

It can't grow anymore

Freely empty yourself and look at me

I'll fill you only, I'll completely fill you only

Your undeniable spell is the Lucifer

Your undeniable magic is the Lucifer

When I approach you

With your angelic face

Say the reason you live is for me

Say it

[Key] When I first saw you, I stopped for a short time

As if someone was tightly seizing my heart, not letting
it go

[Taemin] (Still) You took all, all, all, all, all, all of my
heart just like that

[Jonghyun] You make my heart burn out when you're
not here

[All] If you tie me down and trap me

Then the love is also tied down

The future is also tied down

It can't grow anymore

Freely empty yourself and look at me

I'll fill you only, I'll completely fill you only

Loverholic, robotronic, loverholic, robotronic

[Jonghyun] The love stories I shared with you

[Onew] You look towards the same places I do

[Jonghyun] When we feel that we can't get any more
perfect

[Minho] Only stare at me, you want me more, more,
more, more, more, more

[Taemin] Only look at me, you're the center of
everything, thing, thing, thing, thing, thing

[Onew] Since before, something has been wrong,
you've been weird

[Key] The love I knew left my side, one by one

[Jonghyun] All I have is you

[All] If you tie me down and trap me

Then the love is also tied down

The future is also tied down

It can't grow anymore

Freely empty yourself and look at me

I'll fill you only, I'll completely fill you only

[Onew] I feel like I've become a clown trapped in a
glass castle

[Taemin] I dance for you, who will never be satisfied

[Key] You look into me openly, touching my brain

I think I've become a fool

[Jonghyun] I think I'm only getting more and more
attracted to you

[All] Loverholic, robotronic, loverholic, robotronic

[Onew] It's not that I hate you or that I dislike you

It's just that kind of stare is a burden is all

[Jonghyun] I'm not going anywhere

I've waited like this by only looking at you

[Minho] Your stare captures me

As the days went by, it became sharper

I'm tired of your obsession

I've been cut a lot, my heart is bleeding

When it's about time for me to pass out

She comes to me like an angel, saying "I love you"

Even though I knew it was really you

You really confused me

[All] If you tie me down and trap me

Then the love is also tied down

The future is also tied down

It can't grow anymore

Freely empty yourself and look at me

I'll fill you only, I'll completely fill you only

[Jonghyun] I feel like I've become a clown trapped in a
glass castle

[Minho] Leave me alone, when I'm free, I'll be able to

truly love you
[Jonghyun] Leave me alone, don't make me sick of you
[Key] So I can truly look at you

[All] If you tie me down and trap me
Then love is also tied down
The future is also tied down
It can't grow anymore
Loverholic, robotronic, loverholic, robotronic
Your undeniable spell is the Lucifer
