It's cold outside, I'm sensing fear  
My self control has disappeared  
I'm spinning out at each end  
Could you be kind and let me in

Despite the writing on the walls  
My future's bleak and rather small  
That's all you could ever take from me  
I got nothing to lose, so let me be

Well I sized you up your not that strong  
You're weak inside, I knew all along  
This made up army, you fight in your head  
Destroyed your worth and pronounced you dead

Despite the writing on the walls  
My future's bleak and rather small  
That's all you could ever take from me  
I got nothing to lose, so let me be

There's no more love  
There's no more love  
There's no more love for me and you  
(Listen to me)

No more love  
There's no more love  
There's no more love for me and you  
(Listen to me)

The cruelest joke that has played on me  
Is all planned out so I can't leave  
Now quietly I will walk away  
There's no bad blood but I can't stay

There is no more love  
'Cause there is no more love

Despite the writing on the walls  
My future's bleak and rather small  
That's all you could ever take from me  
I've got nothing to lose, so let me be

Despite the writing on the walls  
My future's bleak and rather small  
That's all you could ever take from me  
I've got nothing to lose, so let me be

There's no more love  
There's no more love  
There's no more love for me and you  
(Listen to me)

No more love  
There's no more love  
There's no more love for me and you  
(Listen to me)
