What happened to the world today what Happens all
you say what happened yesterday? All we do is watch
our back sleep with I can't seem to find a better way I
can't seem to think about today This and fuck with
death we're ready to attack Now I'm never doing right
You will start to feel alright! Take a chance on what you
feel and maybe Alcohol and violence all those skams
And smoking crack how long do And dirty tricks waiting
for the tide to shift So your life is not on track shooting
dope Somebody told me no matter how you feel don't
Forget to know what's real You think you'll last?
Situations everyday you can't make a difference If you
turn the other way Nobody's right nobody's wrong can
you see the Light outside before to long I've got my
pride passed down from my fathers What happened to
the world today what happens Side and you can never
take it away All we do is watch our backs from aids
Heartaches and death- fight it all All you say what
happened yesterday? Till my last breath!
