why should go around and bashing one other if they
look or think different,
why let it bother everyone's got their own style, their
own thoughts don't
let it bother you, don't let it get caught your fascist
attitudes - we need
the least with a scene that's fighting for unity's peace
don't need no more

anger; no more danger don't need to hate;stop before
it's too late learning
how to respect each otheris a must so why start a war
of anger/danger among
us it's time to grow out of your nazi-hypocrism when
you really don't want
part of a fucked up system
