Talk about unity
Talk about conformity
You don't want to support the scene
Why don't you get the fuck away from me
I'm a skin, you're a skin
Who's gonna suffer
Live in sin, where you been
You're all gonna go under
I'm a skin, you're a skin
You're gonna suffer
Fight
Push around and stab each other
Fight around and kill each other
Fight Fight Fight Riot Riot
Beat him hard, beat him dead
Beat him harder, beat him down
Break their legs
We're gonna break their legs. Let's go.
