### "Your Worst Enemy"

Visit "[Your Worst Enemy](#)" on [MotoLyrics.com](https://MotoLyrics.com)

A burdened soul - with no self-control  
You've become - your own worst enemy  
It takes a toll - now you're all alone  
Did it to yourself - your worst enemy

The path you take  
Is the world that you create  
It's what you make of your time  
You play with fire  
Don't make mistakes  
Your time's about to expire

So make the best of your time  
It's now or never  
Soon it'll pass you by  
Right before your eyes

You point the finger  
Don't you know that you're to blame  
You can't avoid it this time  
Burning deep inside  
Emotions are your source of pain  
Don't let it ruin your life

So make the best of your time  
It's now or never  
Soon it'll pass you by  
Right before your eyes

A burdened soul - with no self-control  
You've become - your own worst enemy  
It takes a toll - now you're all alone  
Did it to yourself - your worst enemy
