One day my dream will come true  
That day i meet you,  
and you say that you love me too  
But i can't help myself  
If you are the one that i want  
Oh my superstar  
More than million girls wish to be  
by your side  
I'm one of them  
In the front row at your show  
i can't help but look at you  
sing your songs

When the lights go up  
All the girls start to scream your name  
Is dim in the place i stand  
so you can't see me  
Shouting you're my love  
Please look at me for the first time  
And write me a song with your guitar

When i'm in the dark  
i'm in spotlight too  
'Cuz when i look at you  
You rock my world  
Even know you're miles away from me  
But you still hanging on my heart

In the front row at your show  
i can't help but look at you  
sing your songs  
When the lights go up  
All the girls start to scream your name  
Is dim in the place i stand  
so you can't see me  
Shouting you're my love  
Please look at me for the first time  
And write me a song with your guitar

When the lights go down  
All the girls still scream your name  
wish you come out again

and see me when i  
Shout you're my love  
Please look at me for the first time  
And write me a song with your guitar

Everyday you sing me a song  
i listen on the radio  
That spotlight shine above you  
In my dream you're the only one  
That girls will never write you a song  
saying how they feel about you  
They only scream and sing you're song  
I could do much more  
so write me a song with your guitar

When the lights go up  
All the girls start to scream your name  
Is dim in the place i stand  
so you can't see me  
Shouting you're my love  
Please look at me for the first time  
And write me a song with your guitar

When the lights go down  
All the girls still scream your name  
wish you come out again  
and see me when i  
Shout you're my love  
Please look at me for the first time  
And write me a song with your guitar  
you sing please be mine  
you sing give love a try  
you sing video girl  
this lovebug caught me again

When the lights go down  
All the girls still scream your name  
wish you come out again  
so i can see your face  
i'm Shouting you're my love  
Please look at me for the first time  
And write me a song with your guitar
