They taught us kids in school between the recess  
breaks  
That the universe just sorta fell together like a big  
mistake  
It started with a bang that sent the pieces flying  
And then it cooled and twirled into dinosaurs and  
dandelions

It was a big mistake to have eyes that see  
To have love like this inside of me  
To have lips that smile as I swim your kiss  
To have minds that will forever every part of this

All the moonlight shrouded in the clouds above  
And the autumn leaves and the falling love  
The still reflection in the moonlight lake  
All they said, it was a big mistake, it was a big mistake

Now back in science class through the looking glass  
We were magnifying little ancestors of our ancient past  
Watch 'em break a couple chromosomes, wait a zillion  
years or so  
And get an ostrich, a jellyfish, a kangaroo and a Romeo

It was a big mistake to have eyes that see  
To have love like this inside of me  
To have lips that smile as I swim your kiss  
To have minds that will forever every part of this

All the moonlight shrouded in the clouds above  
And the autumn leaves and the falling love  
The still reflection in the moonlight lake  
All they said, it was a big mistake, it was a big mistake

The choreography of a coincidence  
At the turning point there was eternity behind a  
moment's glance  
It was for you and me, the timing made us laugh  
The fact that anyone could find their only one along  
this darkened path

It was a big mistake to have eyes that see

To have love like this inside of me  
To have lips that smile as I swim your kiss  
To have minds that will forever every part of this

All the moonlight shrouded in the clouds above  
And the autumn leaves and the falling love  
The still reflection in the moonlight lake  
All they said, it was a big mistake, was a big mistake  
Was a big mistake
