BOOGIE RIDE

Come on what's up les rue and I just wanna talk to you
Umm hm Hey hey I want you to send a little love my
way

Hmm mm I want to turn the world around

Chase away all the blues and frowns

Say why oh my won't you give a little love on high

Hmm mmm Take me for a boogie ride, take me for a
boogie ride

We'll shoop the shoop, hip over on the boop, take me
for a boogie ride

Take me for a boogie ride, take me for a boogie ride

We'll shoop the shoop, hip over on the boop, take me
for a boogie ride

Umm hmm umm hmm

Now you can make me feel bad you can make me feel
good

You can shake a mighty finger at the things that I
should

You can take me for a boogie ride you can stop look
listen turn around

You can make me jump till I fall to the ground go back
until I holler

Shoop the shoop hip over on the bump

Shoop the shoop hip over on the bump

Shoop the shoop hip over on the bump Take me for a
boogie ride

Eh Take me for a boogie ride, take me for a boogie
ride

We'll shoop the shoop, hip over on the boop, take me
for a boogie ride

Take me for a boogie ride, take me for a boogie ride

We'll shoop the shoop, hip over on the boop, take me
for a boogie ride

Take me for a boogie ride, take me for a boogie ride

We'll shoop the shoop, hip over on the boop, take me
for a boogie ride

Take me for a boogie ride, take me for a boogie ride

We'll shoop the shoop, hip over on the boop, take me
for a boogie ride
