We had time to dream  
Our huckleberry glide downstream  
That's the way it seemed  
Time was cheap as gasoline

Old Route 66  
Through the sticks  
Was our magic carpet  
How we used to fly and not look down

Far across the seas  
The history of the ancient empires  
(We were)  
Earning our degrees  
We'd study hard to stoke our own fires

So summer we could fly  
You and I  
With our headphones blaring  
Whistling through the fallen ruins of Rome

I know we're not at peace  
Coming back across our border  
Security police  
Change the homeland threat to orange

Remember back when we were the free  
And the hopeful nation  
Home from our vacation  
Toe that line

I got no time to rest  
Search for work in Carolina  
We used to make the best  
Now they ship that stuff from China

Factories closing down  
Left this town  
With our homeless shelters and  
Blankets in the dirt when gates get closed

Ashes in the dust

Must have been their campfire burning  
It's boom until it's bust  
That's the lesson we've been learning

Through our glory days  
All ablaze  
With our pride and promise  
We never saw the ways it all burns down

We're leaving here tonight  
Walk the rails across that river  
On the other side  
All the future can deliver

Across this great divide  
River's wide  
Where the future's waiting  
If I can just decide to leave the past

(Come on)  
It's who we've always been  
The land of dreams and visionaries  
The frontier starts again  
Make our way with what we carry

The journey is from here  
Hope or fear  
For our children's children  
We are the pioneers  
We have a dream again
