Soft and sweet, strong and salty
Cool cream and hot coffee
When we come together there's a change
I know you're good for me
You change me like the weather
You change me for the better
We're good together

Drift and dream, drive with direction
Exploration, introspection
No one way to win through this game
I know you're good for me
You spin me off my tether
You change me for the better
We're good together

Would you please explain it one more time
I love the wild surprise of seeing through your eyes
One from Mars, one from Venus
A whole world between us
Sparks that bridge the difference
Feed the flame
I know you're good for me
You spin me off my tether
You change me for the better
We're good together
