

## David Wilcox "It's Almost Time"

Visit "[It's Almost Time](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Just across the sea, on this world so round  
The sun's shining hot right now  
And even though the winter still surrounds this town  
I can still feel that sun somehow

When I know that my sun will shine  
Just as sure as this world can spin  
I can hold on fine 'cause it's almost time  
For that sun to come 'round again

So, I'll walk beside the sea on this frozen ground  
Where there once was a warm-weather crowd  
And even though that summer's been a long time gone  
I can still feel that sun somehow

When I know that my sun will shine  
Just as sure as this world can spin  
I can hold on fine 'cause it's almost time  
For that sun to come 'round again

When your love grows cold and your heart goes dark  
And the blame seems to fall on you  
Look how seasons must change and don't think it so  
strange  
That your love goes in circles too

And just know that your sun will shine  
Just as sure as this world can spin  
And I know you'll find that it's almost time  
For that love to come 'round again

We can hold on fine 'cause it's almost time  
For that love to come 'round again
