When our lives give us time again
Sometimes we dive right in
Sometimes you're here but gone
When your thinking of things to do
And you let it get to you
Seems like you'd rather be alone

And it feels like I've knocked on your door and I'm
waiting
You're somewhere inside but don't come
You've got your reasons
Sometimes I think that it's me
You're hiding from

CHORUS:
Show me
Show me
Show me the secret
Where you keep it
Show me the key
Show me

I love the nights when are timing is right
It fades with the moon up above
'Cause that's when memories get made
That would never fade
And we feel the depths of our love

Well we don't have time for the stars to align
Let's change our fate with desire
So what can I do to get through to you
When you're worried, frightened, and tired

CHORUS
