Show me the secret where you keep it
Show me the secret I can see
Show me the secret where you keep it
Show me the key

I love the nights when are timing is right
It fades with the moon up above
That's when memories get made
Never will fade and we feel the depths of our love

But we don't have time for the stars to align
Let's change our fate with desire
So what can I do to get through to you
When you're worried, frightened, and tired

Show me, show me
Show me the secret where you keep it
Show me the key
Show me

When our lives give us time again sometimes we dive
right in
Sometimes you're here but gone
When your thinking of things to do and you let it get to
you
Seems like you'd rather be alone

And it feels like I've knocked on your door and I'm
waiting
You're somewhere inside but don't come
You've got your reasons but sometimes I think that it's
me
You're hiding from

Show me, show me
Show me the secret where you keep it
Show me the key
Show me, show me

Show me the key
Show me, show me
Show me
