From Home Again

.....

Say good-bye to your twenties  
Tomorrow is the "Big 3-0"  
For my birthday present  
I've got a place where we can go  
It's a lesson in motion  
To ride the wildest ride  
We're gonna climb to the top of the roller coaster  
And look down the other side

So let me ride in the front car  
And you ride right behind  
And I'll click my snapshot camera  
At exactly the right time  
Shoot back over my shoulder  
Catch the fear no one can hide  
When we tip the top of the roller coaster  
And look down the other side  
Over the hill

So when the prints come back  
We can look at that unmistakable birthday fear  
Like your younger days are over now  
And it's all down hill from here

It was a happy birthday  
You surprised us all  
So take a look at this glossy picture  
I framed it for your wall  
It's the moment of truth  
It's the top of your youth  
The camera don't lie  
You might be screaming  
But there's a meaning  
In the laughter in your eyes  
It seems to be saying  
"Of course there will be fear"  
But this is why we stand in line  
Spend that time  
Make that climb

To finally feel the other side  
And it's all down hill from here

We're gonna climb to the top of the roller coaster  
And look down the other side

.....
