So easy to be on MTV
So easy to be empty
So easy to be on MTV
But there's no authenticity

I see thru yr new black nail polish
And yr fake teen anxt
I can see that all u wanna do
Is take it to the bank

What about revolution?
What about art?
What about fucking things up?
What about speaking yr own voice?
What about giving a fuck?

Cuz it's so easy to be on MTV
So easy to be angry
So easy to be on MTV
But there's no authenticity

I see thru yr fake black eyeliner
And yr fake teen anxt
I can see that all u wanna do
Is take it to the bank

What about thinking outside the box?
What about fucking things up?
What about writing yr own songs?
What about giving a fuck?

Cuz it's so easy to be on MTV
So easy to be angry
So easy to be on MTV
But there's no authenticity
So easy to be on MTV
So easy to be empty
So easy to be on MTV
But there's no authenticity
But who cares? NOT ME!

It's all MTV's fault...

It's all MTV's fault...
It's all MTV's fault!

Can u fit me in one category?
Am I radio friendly?
They say I need some guidance from above
I need to grit my teeth and whine about love

I see thru yr fake teen anxt
I can see right thru yr fake teen anxt

Shift those units, this is business
Shift those units, this is business
Shift those units, this is business
Shift those units, this is
Not art, are you kidding?
This "dream" that we're living?

So easy to be on MTV
So easy to be empty
So easy to be on MTV
But there's no authenticity
But who cares? not me
So easy to be on MTV
So easy to be empty
So easy to be on MTV
But there's no authenticity
Only apathy
But who cares? not me
Who cares? not me
Who cares? NOT ME!
