"A Good Woman"

When you have a Good Woman in your life treat her
right;
(Treat her like a lady)
Show her she's that special type;
Don't you hurt her, don't ever make her cry
Cause a good woman deserves a good man
Someone she can love, someone she can depend on
If every man can find a good woman
Then you would know where I'm coming from

[Chorus:]

Don't you know a Good Woman can make u feel
stronger;
She will stand by your side
And you won't have to be lonely much longer
Don't you know a Good Woman can make you feel like
you can conquer
She will make you feel like you can do anything
She will be there for worst or for better

When you find a good woman you must shower her
with compliments (Compliment her)
From the way she do her hair;
Her smile or the way she dress
Make her feel beautiful; Don't make her feel nothing
less
You've got to be true to her I say & let time do the rest

[Chorus:]

Don't you know a Good Woman can make u feel
stronger;
She will stand by your side
And you won't have to be lonely much longer
Don't you know a Good Woman can make you feel like
you can conquer
She will make you feel like you can do anything
She will be there for worst or for better

You've got to treat her like a lady
You've got to treat her like a Queen
You've got to treat her like a lady
You've got to treat her like a Queen

Treat her like a lady, like a lady

[Chorus:]

Don't you know a Good Woman can make u feel
stronger;
She will stand by your side
And you won't have to be lonely much longer
Don't you know a Good Woman can make you feel like
you can conquer
She will make you feel like you can do anything
She will be there for worst or for better

Don't you know a Good Woman can make u feel
stronger;
She will stand by your side
And you won't have to be lonely much longer
Don't you know a Good Woman can make you feel like
you can conquer
She will make you feel like you can do anything
She will be there for worst or for better

When you find a good woman...
When you find a good woman...
When you find a good woman...
When you find a good woman...

When you find a good woman you've got to treat her
right!
