[Intro:]

(Voice is crying crying out crying out)
The voice is crying out
(Voice is crying crying out crying out)
Can you hear dem
(Voice is crying crying out crying out)
Listen
(Voice is crying crying out crying out)
Can you help dem
(Voice is crying)
Can you
(Voice is crying)

[Verse 1:]

A homeless people on the street
With blisters on their feet (blisters on their feet)
From a distance I heard a voice saying
Sir can you help me (help me)
They been there all day
No will look their way
They ignore their cries
As they pass dem by
Never wondering
If that could be dem someday

[Chorus:]

For you and me
It's just another day (just another day)
The reality
Is all for us to face
For you and me
It's just another day (just another day)
We fail to see
The ones who live this way... way

[Verse 2:]

As the night falls
They have nowhere to sleep (they have no way to
sleep)
From cold board boxes
Beneath the trenches
That's their privacy

So much sleepless nights
All the fears inside
As the cars go by
Strangers in the nights
Never wondering
If that could be dem someday (someday)

[Chorus:]
For you and me
It's just another day (just another day)
The reality
Is all for us to face
For you and me
It's just another day (just another day)
Why can't we see
The ones who live this way

[Bridge:]
(Voice is crying crying out crying out)
Listen to their voices
As you walk on by
(Voice is crying crying out crying out)
Can you hear dem
(Voice is crying crying out crying out)
They're crying out for you
(Voice is crying crying out crying out)
To help dem
(Voice is crying)
Listen...

[Chorus:]
For you and me
It's just another day (just another day)
The reality
Is all for us to face
For you and me
It's just another day (just another day)
We fail to see
The ones who live this way
