[Intro:]

Hold my hand  
Nobody's perfect  
Except me

[Verse 1:]

Hey girl you got me  
Think back and talk to me  
Did things right accoring to your place  
Now I know I was wasting time  
Doing things I did for you  
It hurts cause it's disapprove all alone  
And now I try to make you happy  
I just wanted to make you proud  
But I'll never gonna be good enough for you  
I just can't pretend that  
I'm alright, I'm not alright baby  
And you can't change me

[Chorus:]

Cause we've lost it all nothing lasts forever  
I'm sorry I can't be perfect  
Now it's too late  
We can't go back  
I'm sorry I can't be perfect

[Verse 2:]

I try not to think about  
All the pain I feel inside  
Don't you know you used to be my angel  
All the days you spent with me  
Now seems you're far away  
And it feels like you don't care anymore

And know I tried to make you happy  
I'll wanted to make you proud  
But I'm never gonna be good enough for you  
I can't stand another fight  
Can't stand another fight baby  
And nothing's alright

[Chorus:]

Cause we've lost it all nothing lasts forever  
I'm sorry I can't be perfect  
Now it's too late  
We can't go back  
I'm sorry I can't be perfect

[Verse 3:]

Nothing's gonna change the things that you say  
Nothing's gonna make this right again  
Please don't turn your back  
You'll make it hard to talk you  
Cause you just don't understand!

[Chorus:]

We've lost it all nothing lasts forever  
I'm sorry I can't be perfect  
Now it's too late  
We can't go back  
I'm sorry I can't be perfect

[Chorus:]

We've lost it all nothing lasts forever  
I'm sorry I can't be perfect  
Now it's too late  
We can't go back  
I'm sorry I can't be perfect
