### "Took A Break"

Visit "[Took A Break](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Still standing  
Ain't nothing change  
To all my supporters out there

I know I have been away for a while  
I took a break from the stages and the lights  
I know my friends must be wondering why  
I know you must think this is a glamorous style  
You don't really see my troubles and my ..  
The rat .. the deceives and the lies  
All you see is the glitter and the glam  
But you don't really see the man that I am

I hide my pain and I don't let it show  
In my life people don't keep a role  
I guess I never really know  
Who had got my back who had got my ,  
And I know  
you will never let me down  
they ever gonna get me down  
Never gonna get me down  
Never gonna get me down  
Never gonna get me down  
I know  
Never gonna get me down  
Never gonna get me down  
Never gonna get me down  
Never gonna get me down  
Down down down

Try to .. my inspiration and my thrive  
Even the people that I trust them in my life  
Oh I wish they could cut me like a knife  
To my fans to keep my music alive  
In this business there is no you and me  
That is why I am by myself doing me  
Fulfill my obligation for my fans  
They say they can't wait to hear my next song  
Hide my pain and I will let it show off  
In my life people come and people go  
I guess I will never really know

Who had got my back who had got my ..

And I know  
you will never let me down  
they ever gonna get me down  
Never gonna get me down  
Never gonna get me down  
Never gonna get me down  
Down down down

And I know  
you will never let me down  
they ever gonna get me down  
Never gonna get me down  
Never gonna get me down  
Never gonna get me down  
Down down

People say this people say that  
I don't really care I don't give a fuck  
I live my own life I deal with my own pain  
Spend my own money and my .. on me  
Sometimes is easy sometimes is ,  
Them girl that love me , new to the team  
That is why I keep pricey

And I know  
you will never let me down  
they never gonna get me down  
Never gonna get me down  
Never gonna get me down  
Never gonna get me down  
Down down down

And I know  
you will never let me down  
they never gonna get me down  
Never gonna get me down  
Never gonna get me down  
Never gonna get me down  
Down down down

You will never gonna get me down  
Get me down  
For sure you will never get me down  
Down no no no no
