Intro:

Uh uhhh

Girl when I'm with you(with u, with u)

I can fly(I can fly, I can fly)

Verse 1:

Sometimes I close my eyes

And imagine

You and me far away from all the noise

And then I'd make a wish

Upon a star

That I could be, wherever you are

Hook:

Cause every fiber inside me

Is wanting you baby

Cant you hear mi calling you

(Everyda-a-ay)

So many girls wanna try mi

But I make you only

No one else can make mi feel

(Feel this way)

Chorus:

You put a smile upon my face

Make mi feel so strong and brave

I can do anything(I can do anything)

When I'm with you

With you I've had my happiest days

In my arms nothing compares

I can do anything(I can do anything)

When I'm with you

Verse 2:

Sometimes I'd lie awake

Reminiscin

On the days, and the times, spent with me

Then nothing to myself

In my head

You are the best ting that ever happened to mi

Hook:

Cause every fiber inside me
Is in love with you baby
Dont you ever, dont you ever forget(forg-e-e-et)

So many girls wanna try mi
But I love only you
No one else can make mi feel
(Feel this way)

When I'm with you
I'm so inspired
That I can do(I can do) I can do anything(everything
that I want to)
And you make mi feel like
I can fly, I can do anything
I can do anything(I can do anything)
I can do anything(Feel like I can fly)
Anything that I want to(Fly, fly)
Whenever I'm with you

Chorus:

You put a smile upon my face
Make mi feel so strong and brave
I can do anything(I can do anything)
When I'm with you
With you I've had my happiest days
In my arms nothing compares
I can do anything(I can do anything)
When I'm with you
You put a smile upon my face
Make mi feel so strong and brave
I can do anything(I can do anything)
When I'm with you
With you I've had my happiest days
In my arms nothing compares
I can do anything(I can do anything)
When I'm with you
