You see me as I'm falling down  
You catch me before I hit the ground  
You lift me up showing that I am found  
I can't explain what you mean to me  
I'm touched by you if only you could see  
I love you. I'd do anything to be

(Chorus:)

Right where you are  
You seem so very far away from me  
I'd die just to hold you  
I hope that you're thinking about me to  
This distance is killing me  
I only wish that I could see you now

I miss your scent, your touch, your embrace  
I miss the smile upon your face  
I miss your voice telling me that I'm ok  
Did I or did I not show  
How much I love you I want you to know  
I love you. I'd give up everything to go

(Chorus)

Your words you gave to me  
Permanently remain in my mind  
You can't rescue me from where you are right now  
But I know someday I'll find

(Chorus x2)
