Words can't describe these feelings  
I'd rather just hide these feelings  
I don't want to say something to ruin this  
What you want me to say it will just ruin this

So I'll just say

Chorus:

You're wonderful  
You're just what I need when I need someone  
I love you  
Thanks for everything for all that you are  
I just want to say... thank you

I sit back and watch you smile  
Then I know my time is worth the while  
I don't deserve to be this close to you  
You deserve something better

Because...

(Chorus)

I bleed when you get teary eyes  
I hope see the pain I feel inside  
I don't want you to hurt any more than now  
It will go away I know some how  
I don't want to say anything to ruin this  
So all I will say is I love you

(Chorus 2x)
