

## Shoelessjoe "Blade"

Visit "[Blade](#)" on [MotoLyrics.com](https://MotoLyrics.com)

the lights decay as the sun melts around you  
and the air is a fire  
burning inside you on the floor  
and the gasoline is a bomb  
is a bad bad precipace  
the promises have all been ripped away  
I didn't need them anymore anyway no  
I didn't need them anymore anyway

when the pain comes stabbing with the sunrise  
make you want to block a day out of your life  
doesn't matter if the blade is a good wife  
make you wanna cut a way out of your life  
afraid your life's gonna slip away  
afraid your life's gonna fade away  
afraid your life's gonna slip away

the mind a haze as the day spins around you  
on the wall is a face  
gazing at the wounded on the floor  
and the candle light is a bomb  
is a bad bad precipace  
the best of this has all been stripped away  
I didn't need it anymore anyway no  
I didn't need them anymore anyway

when the pain comes stabbing with the sunrise  
make you want to block a day out of your life  
doesn't matter if the blade is a good wife  
make you wanna cut a way out of your life  
afraid your life's gonna slip away  
afraid your life's gonna fade away  
afraid your life's gonna slip away

I don't need to know but I wanna know  
I wanna know
