Visit "[Jump With Me](#)" on MotoLyrics.com

thought you said you would jump with me
and that we were gonna fly
I hit the ground I crashed I burned
and nothing saves that wasted time
take a look around myself and what do I see?
that aint luck, that aint nothin
just some suck charity

CHORUS

thought you said you would jump with me
thought you said you would jump with me
thought you said you would jump with me
now Im flying now Im free

thought you were gonna come with me
and see the promise kept alive
well all this time you been around
just a ghost, a shell, a fuckin lie
take a look around myself and what do I see?
that aint love, that aint nothin
just some suck charity

CHORUS

you cut me cleanly and then ground me down to
nothing...nothing
