Superficial fantasy  
Superficial fantasy  
I found myself floating in a little dream  
You were there your eyes they shone like golden  
streams  
I reached out my hand to you  
And called your name  
Then I awoke here alone  
I was dreaming again

And baby I just can't believe  
That you weren't really there with me  
Baby it was oh so real  
But it was just a dream  
And baby I just won't believe that you were never there  
with me  
Cause baby it was oh so real  
In my dream  
In my dream

Superficial fantasy  
I imagined you were here with me  
Superficial fantasy  
I was drifting in my sleep

Sweet memories keep going around and round my  
head  
And I for now am sorry bout the things I said

You were always there when I needed you to pull me  
through  
What was I thinking when I thought of leaving you

And baby I just can't believe that you were really there  
with me  
Why didn't you just come to me  
Come and wake me from my sleep  
It don't have to be a dream  
It could be reality  
Baby I just wont believe  
That it's just a dream  
That it's just a dream

Superficial fantasy  
Ohhhh I imagined you were here with me  
Superficial fantasy  
I was drifting in my sleep

Superficial fantasy  
It was just a dream  
Superficial fantasy  
I was drifting in my sleep and boy I hope we can make  
this dream come true  
And boy I know that I'm safe with you

But will we grow to see our dream  
Because reality

And baby I just can't believe that you weren't really  
there with me  
Baby it was oh so real  
Was it just a dream  
And baby I just won't believe that you weren't really  
there with me  
Cause baby it was oh so real  
In my dream  
In my dream

Superficial fantasy  
Superficial fantasy  
Superficial fantasy  
Superficial fantasy

It was just a dream  
It was real babe so real baby

It was just a dream  
It was oh so real it was oh so real  
Baby I know that you were there with me in my dream  
I know that you were there with me in my dream  
Honey I know that you were there with me in my dream  
I know that you were there with me in my dream  
Baby ooooooohhh  
Uuummmmm  
No I won't believe
