You got to hold on me (dans ma vie)
You know I need you in my life (dans ma vie)

Slowly I've fallen in love
Without realising what it was
Now that I know I'm fascinated
All of you is not enough

J'ai vu la nuit au bout du jour
Tout contre toi j'ai vu le jour
Quand l'inspiration des nuits qui souffle encore
J'ai su conjurer le sort

You are an elation
Sweet revelation
And in your eyes I see my future
You are all I'm thinking of

{Refrain:}
You got to hold on me
You know I need you in my life
You got to spell on me
You know I never felt so right
J'entends ton ?cho sur un air de you and me
O? mon coeur bat d'une douce symphony

J'ai voulu voir ce que disait
L'echo de mon coeur dans tes pens?es
Et dans ton regard j'me suis vu changer
J'ai d?couvert qui j'?tais

I'll never be alone...
Now that I have you in my arms
I can see clearly now the rain has gone
You were sent from above

Je t'aime ? la passion
Douce incantation
Dans tes yeux je vois la couleur
Que l'amour a pour seule

{au Refrain, x2}

Just leave your cares behind
Pour un nouvel essor
Sprade your wings across the sky
I know a place there is paradise
Sur un nouvel air
You are my everything the answer to my prayers

You know I need {x2}
You in my life (ooh lady)
Now that I have you in my arms
Loving now and tomorrow {x2}

You got to hold on me

Je vois un nouveau jour o? notre univers s'?crit (dans
ma vie)
Je sens aux alentours, que l'humeur est ? l'oubli (and I
never felt so right)
J'entends ton ?cho sur un air de you and me (I never
felt so right)
O? mon coeur bat d'une douce symphony

{au Refrain}
