Visit "[Stuck With Eachother](#)" on MotoLyrics.com

You can think you could get free, think you won't need me

That you're gonna get you somethin' better

But you know that we're in this forever

And you can think you can walk out even with your doubts

But you know that we're in this together

You can try to push me from you

Nothing you do can pull us apart

'Cause it's too late, there's no escape, might as well face it

Baby, we're stuck with each other, stuck with each other

Ain't nothin' you can do 'bout it

It's been too long, this is too strong, 'cause we belong here

Baby, we're stuck with each other, stuck with each other

Stuck in love with each other, stuck in love with each other

Yeah

Now I can say I would not care if you were not there

Tell myself that I'll be fine without ya

But I'd die if I was not around ya

And I can try to convince you I don't need to be with you

But my only thoughts are thoughts about ya

What can I do? Love is like glue

There's no way to tear us a part

'Cause it's too late, there's no escape, might as well face it

Baby, we're stuck with each other, stuck with each other

Ain't nothin' I can do 'bout it

It's been too long, this is too strong, 'cause we belong here

Baby, we're stuck with each other, stuck with each other  
Stuck in love with each other, stuck in love with each other

There's nothing I'd rather do than sit with you forever  
Can't think of nothin' better than bein' stuck with you

'Cause it's too late, there's no escape, might as well face it  
Baby, we're stuck with each other, stuck with each other  
Ain't nothin' we could do 'bout it

'Cause it's too late, there's no escape, might as well face it  
Baby, we're stuck with each other, stuck with each other  
Stuck in love with each other, ain't nothin' I can do 'bout it

It's been too long, this is too strong, 'cause we belong here  
Baby, we're stuck with each other, stuck with each other  
Stuck in love with each other, stuck in love with each other

'Cause it's too late, there's no escape, might as well face it  
Baby, we're stuck with each other, stuck with each other  
Stuck in love with each other, ain't nothin' I can do 'bout it

It's been too long, this is too strong, yes we belong here  
We're stuck with each other, stuck with each other  
Stuck in love with each other, stuck in love with each other

Ain't nothin' gonna stop me and you, eh  
'Cause you know we just stuck like glue, eh  
Ain't nothin' we can do  
We stuck in love with each other
