My friends all tell me  
What they think that I should do  
So much confusion  
When it comes to loving you

So many reasons  
Why we should stay apart  
My mind tells me one thing  
Should I listen to my heart

Should I say yes, should I say no  
Wish I knew you better  
Should I say yes, should I say no  
Should I say no

We may be different  
But there's one thing that stays the same  
I know I need you  
In a way that I can't explain

So many reasons  
Why we should stay apart  
My mind tells me one thing  
Should I listen to my heart

Should I say yes, should I say no (I wanna know)  
Wish I knew you better  
Should I say yes, should I say no  
You won't wait for me forever

Should I say yes, should I say no  
Wish we were together  
Should I say yes, should I say no (Whoa, no)  
Should I say no

My mind tells me one thing  
When I'm listening to my heart  
Will we be together (Will we be together)  
Or will we be apart, yeah

Should I say yes, should I say no (Whoa, no)  
Wish I knew you better

Should I say yes, should I say no  
I'm writing you a letter

Should I say yes, should I say no (Whoa, baby)  
I wish we were together  
Should I say yes, should I say no  
You won't wait for me forever and ever and ever  
Forever and ever and ever and ever  
Forever and ever  
Forever and ever, forever and ever
